

Hockey Canada Convenience Fee

At the Hockey Canada Semi Annual meeting in November 2010 it was unanimously approved that a \$2 online convenience fee would be applied to all credit card transactions in the Hockey Canada Registry.

The new Hockey Canada Convenience Fee of two dollars will be added on all credit card transactions starting July 1, 2011. The system will **NOT** charge those transactions that choose other payment options such as cheque, money order, or cash.

The Fee is non-refundable.

Purpose of the Hockey Canada Convenience Fee

The purpose of the Hockey Canada Convenience Fee is to establish a fund to reinvest back into a technology fund to support continued improvements and development of the Online Payment Web Systems.

Funds collection will help pay for improvements to our web systems.

How it works

It is important to note that the Convenience Fee will be charged per transaction and not per member registered.

Example #1: A parent registers & pays for two or more participants at one time.

A parent registers two or more participants at one time using the HCR system will only pay a single \$2 Convenience fee.

Example #2: A parent registers & pays for two or more players on different transactions or days.

A parent registers two or more participants separately in the HCR system will pay a \$2 Convenience fee for each transaction.
