**Comments:**

- 1 #2 checked a White Squad player in the head, along the side boards. No injury
- 2 #3 skated after me at the end of the third period, protesting some none calls that he thought should have been made, he was told a number of times to go to his bench and continued. He was told if he did not have a C or A on his sweater that he could not take to me, he still continued, a M20 was assessed.
- 3 Trainer for White Squad was given a GM20 for continuing to make gestures and shaking his head after the bench was warned to stop.
